### The Importance of Reading

## Better comprehension

Children who are encouraged to read at an early age have better comprehension of things around them. They develop smart thinking abilities and are more receptive to creativity and ideas that other kids their age lack. As a result, they grow up to be a good deal more intelligent and aware of their surroundings than children who don't read.

The more you read, the more imaginative you become. Whenever you read a fiction book, it takes you another world. In the new world, your imagination works at its best as you try to see things in your own mind.
